PROFILE

Product Manager with 6+ years of experience at leading technology companies including Alibaba, Meituan and Kuaishou, delivering complex, data-driven platform products and applications serving more than 100 million users. Led products from customer research and strategy development through design, launch and continuous optimisation, with experience across consumer products, B2B platforms, API/SDK services and commercialisation initiatives. Combines master's degrees in engineering and business with a strong track record of using customer insights, behavioural data and operational metrics to shape product strategy, prioritisation and decision-making.

CORE EXPERTISE

Product Lifecycle Management | Cross-functional Program Management | Product Analytics, SQL & A/B Testing | Customer & Enterprise Requirements | Product Gap & Issue Resolution | Platform Products & API/SDK Services | Launch Readiness & Performance Monitoring | Stakeholder Management & Escalation | Process & Workflow Optimisation

PROFESSIONAL EXPERIENCE

Senior Product Manager

Sep 2023 - Mar 2024

Beijing ShanKuai Network Tech. Co. Ltd (Meituan), Beijing, China

- Led cross-functional delivery optimisation for a drone logistics network, coordinating hardware, software, engineering, operations and dispatch stakeholders to align programme priorities, reduce delivery failures by 11% and support 21% business expansion.
- Defined success metrics and exception-management workflows across autonomous flight, manual takeover and ground-courier fallback, partnering with Operations and Dispatch to reduce overdue deliveries by 15%.
- Redesigned operator handover procedures and operational SOPs, improving takeover success and reducing handling time per device by 30 seconds (16.8%), increasing operational capacity as the delivery network expanded.

Senior Product Manager

May 2022 - Aug 2023

Beijing Langge Technology Co. Ltd, Beijing, China

- Led cross-functional delivery of a lane-level positioning and navigation capability, coordinating Data and Automotive Engineering dependencies from requirements through production adoption in two vehicle models.
- Coordinated Sales and Engineering to productise location-data capabilities for 100+ commercial and public-sector clients, aligning customer requirements, solution scope and delivery priorities.
- Led the cross-functional integration of vehicle navigation and recommendation products, launching nearby, en-route and food-and-entertainment recommendations and contributing to revenue growth of more than 2.4%.

Product Manager

Sep 2021 - May 2022

Dajia Internet Information Tech Co. Ltd (Kuaishou), Beijing, China

- Analysed behavioural and conversion-funnel data to identify product gaps and align Algorithm and UX teams around product priorities, contributing to a 0.8% increase in retention, a 1.7% increase in transaction rate and a 2.3% increase in subsequent purchase conversion.

Product Manager

Apr 2020 - Sep 2021

Alibaba Group Holding Limited, Beijing, China

- Led a 0-to-1 real-time event publishing platform from concept through go-to-market, coordinating six interdependent teams across customer operations, core services, rendering, announcement, front-end experience and monitoring; managed cross-team dependencies and generated RMB 6M+ in initial revenue.
- Translated diverse enterprise requirements into differentiated API/SDK service tiers, balancing performance and infrastructure efficiency for 100M+ consumers and 1,000+ enterprise clients.

Junior Product Manager

Mar 2018 - Apr 2020

Alibaba Group Holding Limited, Beijing, China

- Built an end-to-end quality and observability framework covering service performance, feature impact and server health; established monitoring, alerting and regression testing that reduced incident response time from one day to one hour.
- Designed scenario-based evaluation and operational activation workflows for metro, indoor, elevated-road and ride-hailing journeys, improving the reliability of ML-enabled positioning decisions.

EDUCATION

MSc Sustainable Supply Chain Management

2025 – Aug 2026

UCD Michael Smurfit Graduate Business School | Dublin, Ireland

MSc Aeronautical and Astronautical Science

2015 – 2018

Beijing Institute of Technology | Beijing, China

Bachelor of Vehicle Engineering

2010 – 2014

Shandong University of Technology | Zibo, China
